# Symmetry Guest VMS Overview

## Streamline and Automate Visitor Check-In

Visitors pose the biggest risk to an organization. Managing identities from check-in to departure improving the visitor experience.

## No More Logbooks - Get on the Audit Trail

Eliminate inaccurate paper logbooks and implement a visitor audit trail to track visitors and meet compliance

## Make Your Visitor Feel Welcome

Send an email prior to their visit to put them at ease. After the employee pre-registers the visitor, they receive a welcome email that can include travel or arrival instructions, a map, parking or other pertinent information.
